1. Assemble Base by connecting center bar to end frames with 4 bolts (2 per end). Turn upside down to insert casters.

2. Assemble 2 grid panels using three (3) connectors — to form a “T”. Repeat for remaining 2 panels to form a “T” facing the opposite direction.

3. Set both assembled “T” grid sections onto base and connect center panels together using three (3) connectors.

4. Connect grid to base at four corners using bolts/washers/nuts (2 per corner).
