

4-WAY GRID TOWER Assembly Instructions

Grid Connector

STEP 1

Assemble Grid Panels in pin wheel pattern, using three grid connectors per panel-to-panel connection.

STEP 2

Assemble base in pin wheel pattern, using two bolts per side (bolts screw directly into end of adjoining member.)

STEP 3

Assemble casters on base. (Tighten each caster snugly into base to insure caster will not shear off under load.)

STEP 4

Place assembled grid panels on base. Fasten panels to base at tabs with eight bolts and nuts.
